PROFILE

Civil and transport engineer focused on bus-priority design, public-realm safety, and data-informed corridor planning across UK and EU contexts.

SPECIALISED SKILLS

Technical: AutoCAD Civil 3D, ArcGIS Pro, QGIS, Python, TfL Healthy Streets checks, junction modelling, Excel

Languages: English, Yoruba, French working proficiency

ENGINEERING EXPERIENCE

Transport Engineer, Meridian Mobility Partners
London, UK

March 2023-Present

- Prepare concept designs for bus-priority corridors, cycle-lane tie-ins, and pedestrian crossing upgrades across three London boroughs.
- Analyse Oyster-style passenger count extracts and turning-count surveys to identify delay hotspots during AM and PM peaks.
- Coordinate design comments from local authority officers, accessibility advocates, and utility stakeholders.

Graduate Civil Engineer, Ardent Infrastructure
Birmingham, UK

September 2020-February 2023

- Supported detailed design packages for drainage, kerb alignment, and temporary traffic management on high-street improvement schemes.
- Created GIS maps linking collision records, school entrances, and bus-stop locations for safer-routes-to-school funding bids.

EDUCATION

University of Leeds

July 2020

MEng Civil and Structural Engineering, First Class Honours

- Dissertation: Bus stop spacing and dwell-time reliability on mixed-traffic corridors

CERTIFICATIONS

Engineering Council UK, Engineer in Training; Construction Skills Certification Scheme card

PROJECT HIGHLIGHTS

High Street Bus Priority Concept Package
Meridian Mobility Partners

2025

- Prepared option drawings comparing kerbside bus lanes, signal-priority changes, and loading-zone consolidation for a constrained retail corridor.
- Summarised tradeoffs for journey time, pedestrian delay, and disabled-parking access in a briefing used by borough officers.

School Streets Safety Review
London borough programme

2024

- Mapped collision records, school gate locations, and proposed modal filters to support consultation materials for three primary schools.
- Reviewed public comments and tagged recurring concerns around access, enforcement, and bus-stop relocation.
