CORE COMPETENCIES

Revenue operations, Salesforce reporting, SQL basics, customer onboarding analytics, stakeholder communication, dashboard QA

IMPACT HIGHLIGHTS

Customer Expansion Analysis 2026

RevOps initiative

- Merged product-usage exports with Salesforce opportunity data to identify 42 accounts showing expansion-ready activity patterns.
- Created a review sheet used by account managers to prioritize renewal conversations before quarter close.

Onboarding Health Score 2025

Selected Work

- Defined a simple score combining implementation milestones, unresolved support tickets, and admin training attendance.
- Piloted the score with 18 new customers and surfaced four delayed launches before executive escalation.

PROFESSIONAL BACKGROUND

Revenue Operations Associate, Clearpath Software Jan 2024-Present

New York, NY

- Maintain Salesforce fields, account assignment rules, and weekly pipeline dashboards for a 32-person go-to-market team.
- Partner with customer success leaders to reconcile renewal forecasts against product adoption and support trends.

Customer Success Coordinator, HarborLearn Jun 2021-Dec 2023

Hoboken, NJ

- Tracked onboarding tasks for school district customers and prepared launch summaries for implementation consultants.
- Built Excel trackers that reduced missing data in monthly customer-health reviews.

ACADEMIC TRAINING

Rutgers University May 2021

Bachelor of Arts in Economics

- Coursework: Econometrics, Statistics, Information Systems

TECHNICAL TOOLKIT

Salesforce, Excel, SQL, Tableau, Looker Studio, Zendesk, Notion

SELECTED REPORTING WORK

Renewal Forecast Hygiene Q4 2025

Clearpath Software

- Compared customer-success notes, billing dates, and product-usage trends to flag renewal records with stale probability values.
- Built a manager review tab that separated data-quality issues from true commercial risk.

Implementation Milestone Audit 2024

Clearpath Software

- Reviewed 96 onboarding projects to identify where milestone labels drifted between implementation, support, and account-management teams.
- Proposed a smaller milestone set that made reporting easier without hiding delayed technical setup work.
