## CONTACT

+1 000 000 0000  
aria.novak@example.test  
Cloud City, ZZ

## ABOUT ME

Analytical problem-solver with experience across data workflows, backend scripting, and automation. Interested in building reliable, scalable systems.

## EDUCATION

B.Sc Computational Studies  
fictional Institute of Technology  
2018 – 2022

## EXPERIENCE

### AURORA METRICS GROUP DATA OPERATIONS ASSOCIATE

2022 – 2024  
Designed internal scripts to process unstructured text data. Built validation rules for multi-format document ingestion. Collaborated with QA teams to reduce parsing errors by 35%.

### NORTHSTAR SYSTEMS BACKEND AUTOMATION INTERN

2021 – 2022  
Assisted in developing API endpoints for internal tools. Maintained cron-based workflows. Wrote documentation for pipelines.

## SKILLS

Python  
SQL  
REST APIs  
Regex  
Data Validation  
Linux CLI

## PROJECTS

### Resume Intake Simulator

- Generated synthetic resumes to test parsing heuristics.
- Evaluated extraction accuracy for email, phone and, location.

### Log Parsing Toolkit

- Parsed semi-structured logs.
- Implemented fallback rules for malformed entities,

## TOOLS

Git / GitHub  
Docker  
FastAPI  
Google Sheets API  
Bash  
AWS
