ABOUT ME

Civil Engineer with strong experience in structural design support, site engineering, and infrastructure project coordination. Proficient in engineering analysis, construction documentation, and compliance with design standards. Experienced in collaborating across multidisciplinary teams to deliver projects on schedule and within scope.

EXPERIENCE

Civil Engineer

Atlas Infrastructure Services

Jul 2022 - Present

- Supported structural analysis and design calculations for commercial and mixed-use developments
- Prepared and reviewed construction drawings and technical documentation
- Coordinated with architects, contractors, and survey teams to resolve design issues
- Assisted in quantity estimation and material take-offs

Site Engineer

FoundationWorks Engineering

Aug 2020 - Jun 2022

- Monitored on-site construction activities to ensure compliance with design specifications
- Conducted site inspections and maintained daily progress reports
- Assisted with scheduling, subcontractor coordination, and quality checks

EDUCATION

B.E. Civil Engineering

Institute of Engineering Studies

2016 - 2020

PROJECTS

Urban Drainage Improvement Project

- Assisted in hydrological analysis and stormwater management planning
- Prepared layout drawings and cross-sections using CAD tools
- Supported documentation for regulatory submission

Mid-Rise Commercial Building Design

- Contributed to structural modeling and load analysis
- Assisted in detailing reinforced concrete elements
- Coordinated design revisions based on site constraints

SKILLS

- **Structural Engineering:** Structural load calculations, reinforced concrete design, steel structure design, structural modeling
- **Geotechnical & Hydrology:** Soil mechanics fundamentals, foundation analysis, hydrology basics, drainage design
- **Design Software:** AutoCAD, Civil 3D, ETABS, STAAD.Pro, SAP2000
- **Construction Planning & QA/QC:** Construction scheduling, quantity take-offs, BOQs, quality inspections
- **Codes & Documentation:** Design code compliance, technical reports, construction drawings, regulatory submissions

CERTIFICATIONS

- Construction Safety and Risk Management
- Structural Design Fundamentals
