

OBJECTIVE

Registered nutritionist with a background in clinical and community health settings, seeking a client-facing role where I can apply evidence-based dietary counseling to support individuals in achieving sustainable, long-term health outcomes. Passionate about meeting patients where they are and committed to delivering culturally sensitive, personalized nutrition guidance that is both scientifically grounded and practically achievable.

Jordan Mitchell

NUTRITIONIST

I am passionate about making evidence-based nutrition accessible to everyone, regardless of background or income. I believe that food is one of the most powerful tools we have for preventing and managing chronic disease.

EXPERIENCE

CLINICAL NUTRITIONIST LAKEWOOD CENTER, TX
Jan 2021 - Present

Provides individualized nutrition counseling to a caseload of 40+ patients weekly, with a focus on chronic disease management including diabetes, hypertension, and obesity. Develops personalized meal plans aligned with medical guidelines and patient lifestyle, regularly collaborating with physicians and care coordinators to ensure integrated treatment. Tracks patient progress through quarterly assessments and adjusts dietary recommendations based on lab results and self-reported outcomes.

NUTRITION ASSISTANT | ST. RAPHAEL HOSPITAL, TX
Jun 2018 – Dec 2020

Supported registered dietitians in conducting nutritional screenings and developing care plans for inpatient populations across oncology and cardiac wards. Assisted in delivering group nutrition education sessions for patients and caregivers, covering topics including heart-healthy eating and post-surgical dietary transitions.

CERTIFICATIONS

COMMUNITY NUTRITION OUTREACH PROGRAM

Designed a 6-week group nutrition education series targeting low-income households in Houston neighborhoods, reaching 80+ participants across four community centers. Post-program surveys showed a 45% increase in participant confidence.
