ARIA NOVAK

ABOUT ME

Analytical problem-solver with experience across data workflows, backend scripting and automation. Interested in building reliable, scalable systems.

EDUCATION

B. Sc. Computational Studies

Fictional Institute of Technology
2018 - 2022

SKILLS

- Python
- SQL
- REST APIs
- Regex
- Data Validation
- Linux CLI

TOOLS

- Git / GitHub
- Docker
- FastAPI
- Google Sheets API
- Bash
- AWS

WORK EXPERIENCE

Data Operations Associate, Aurora Metrics Group

2022 - 2024

- Designed internal scripts to process unstructured text data. Built validation rules for multi-format document ingestion.
- Collaborated with QA teams to reduce parsing errors by 35%.

Backend Automation Intern

2021 - 2022

- Assisted in developing API endpoints for internal tools.
- Maintained cron-based workflows.
- Wrote documentation for pipelines.

PROJECTS

Resume Intake Simulator

- Generated synthetic resumes to test parsing heuristics.
- Evaluated extraction accuracy for email, phone and, location.

Log Parsing Toolkit

- Parsed semi-structured logs.
- Implemented fallback rules for malformed entities.
