

DARA OKONKWO

Project Manager

CAREER SUMMARY

Environmental scientist turned project manager with 8+ years delivering field research, remediation, and sustainability initiatives. Experienced leading cross-functional teams on federal and municipal contracts, with a strong record of keeping complex multi-site projects on scope and on budget.

EXPERIENCE

Senior Project Manager, Greenfield Environmental Consulting, Denver, CO

Mar 2020 - Present

- Managed 6 concurrent remediation projects across 3 states with a combined budget of \$4.8M, delivering all on schedule
- Led stakeholder engagement with EPA, state agencies, and local community groups to obtain environmental permits
- Introduced Agile sprint cycles for internal reporting, reducing documentation turnaround by 40%

Environmental Project Manager, Summit Earth Solutions, Boulder, CO

Jan 2017 - Feb 2020

- Oversaw Phase I/II Environmental Site Assessments for 20+ commercial and industrial properties
- Coordinated field teams of up to 10 scientists across multi-month sampling campaigns
- Authored technical reports and presented findings to municipal clients and regulatory bodies

Environmental Scientist, Rocky Mountain Research Institute, Fort Collins, CO

Jun 2014 - Dec 2016

- Conducted water quality monitoring and soil sampling across 15 watershed sites
- Contributed to federally funded NEPA compliance reports for land-use planning projects
- Maintained field data collection protocols and QA/QC procedures
